

## Overview and Basic Data Entry Steps: Budget Section

This section is intended for experienced users, or those who have some familiarity with PennERA. New users may also find it helpful.

Expanded and more detailed instructions are included in the PennERA Proposal Development User's Guide:

- Step-by-step instructions with screen shots.
- Helpful for all user levels but especially for newer users.

All actions to add Penn and SubAward personnel and to create SubAwards can be initiated from the Personnel screen.

Budget details for Personnel, Non-Personnel, and SubAwards (subcontracts) are added from the Budget section.

**NOTE:** Penn Key and Non-Key Personnel and SubAwards may also be added in the Budget section.

### Budget Section

*This section provides a high-level overview of the Budget section.*

The Budget section consists of several screens.

- Budget opens in a separate window; all other record screens may still be accessed from the record's browser window separately from this section.
- Screens may be accessed and edited in any order.
- Each screen can be accessed from the list in the left frame or from the primary "Budget" screen.
- Click + at the end of each screen item to expand and view additional screens within a Period or SubAward. This is an alternate method to accessing directly from "Budget".

### Budget

- Data entry for all types of expense is entered and edited from the primary "Budget" screen.
- This screen is subdivided into Personnel, Non-Personnel, and SubAward sections.
- Subcontract Adobe forms can be imported or exported here.
- Budgets may be exported to Excel spreadsheets.
- Budget totals for the entire project are summarized on this screen and may be viewed by Project, Sponsor, Institution (cost-sharing) or UnAllowable Costs.
- A PDF of the relevant S2S budget forms can be built and viewed.
- When all data entry is finished, this screen is marked "Completed" to lock the budget.

### SubAwards

- This section provides an alternate method for creating and editing SubAward (subcontract) expense.

- Each SubAward is also listed and can be accessed from this link and expanded to view/edit each Period, Cost Sharing, and Justification.

**F&A**

- F&A is either calculated or manually entered on this screen.
- Summary F&A Breakdown information is available, as well as detail for each expense item.

**Cost Sharing**

- Cost sharing is displayed here if any cost sharing has been entered for expense items in "Budget".
- Cost sharing may also be manually entered here for each expense item.

**Justifications**

- Upload justification narrative when required.

**Versions**

- Create multiple versions of the overall budget.
- Download an Excel spreadsheet of any version.

**Setup**

1. Source View

- The budget defaults to the Sponsor View, that is, the funds being requested from the Sponsor.
  - Users can change the view to select one of the other options to view expense entry.

2. Rollup subprojects

- Penn does not use the subprojects component of Proposal Development; leave this set to "Not Rollup".

**Rollup subprojects:**

Not Rollup

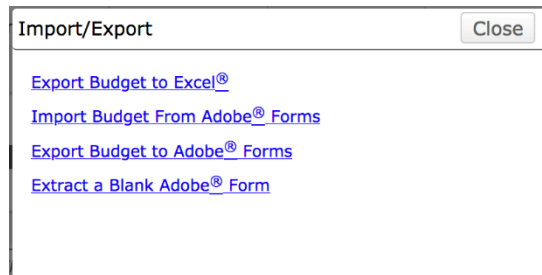

3. Proposal Structure

- The elements of the Proposal Structure are Prime (Penn) and SubAwards.
- SubAwards added on Personnel will already appear here, but may also be initiated in this section of Budget.

4. Import/Export

- Export budgets:
  - ...to an Excel spreadsheet for internal use.
  - ...to Adobe Forms to send to a collaborating institution if Penn is a subcontractor.

- Import a budget from Adobe Forms if this is a generic record and you have already completed this package.
 

**NOTE:** Since data entry in PennERA is simpler and most calculations are automated, it is recommended that users complete a detail budget in a PennERA generic record, then *export* that information to Adobe Forms.

**NOTE:** This is *not* the location for importing SubAward budgets from Adobe Forms. That step is completed in individual SubAward budgets.

- Extract a blank Adobe Form to send to collaborating institutions who will be SubAwardees on this application. It is completed and returned for importing in the SubAward budget.

5. Build PDF

- In S2S records, the budget may be built to display a PDF of the completed budget form.

6. Complete Budget

- Click this option to lock the budget when all data entry is completed.
